

Managed Microsoft Azure® with Steadfast Support

THE PROBLEM: Microsoft Azure® has become increasingly popular, but can still be difficult to migrate and support if you do not have the right IT resource expertise.

GET MANAGED AZURE® WITH THE RELIABILITY AND SUPPORT YOU EXPECT FROM STEADFAST

 **Microsoft Azure**

THE SOLUTION: Let our Steadfast cloud experts assess your cloud options and then help migrate and support Managed Microsoft Azure® clouds as part of your monthly Steadfast service.

CLOUD EXPERTISE ON-DEMAND

Steadfast can guide you through a Managed Azure® cloud migration, or act as an extension of your IT resources, allowing you to gain the expertise of our cloud experts without the time and cost investments of recruiting or retaining additional IT employees.

RAPID RESPONSE SUPPORT

Steadfast staffs highly-trained, 24/7/365, on-site engineers that are driven to provide industry-leading response time to troubleshooting calls (typically within 15 minutes or less), giving you a live person within minutes if you have questions or concerns.

WHAT MAKES AZURE® THROUGH STEADFAST ATTRACTIVE?

Migration Service

We support Managed Azure® migrations as part of your monthly services.

Simplified Billing

Bundle Managed Azure® license into your monthly Steadfast invoice.

Security

Steadfast diligently remains current on all security threats to help client data remain protected and secure.

Fixed Costs

Our fixed billing model also ensures that you are never surprised by unexpected or unplanned costs.

Compliance

Our operations reside on a SSAE16-certified Security Operations Center, designed to help you achieve SOX, HIPAA, and PCI DSS compliance.

Scalability

Should you need to scale or evolve your Managed Azure® into a hybrid cloud, we have the cloud expertise to do so quickly, correctly, and cost-effectively.
